

## How Funding Works:

*Student Package = (Tuition/Fees + Minimum Guaranteed Funding + Top-Up) - Scholarship*

**RA = Research Assistantship. Paid by the Supervisor monthly via regular payroll**

**UF = University Fellowship. Paid by the Department and issued in as many installments as sessions that the student is registered in a given academic year**

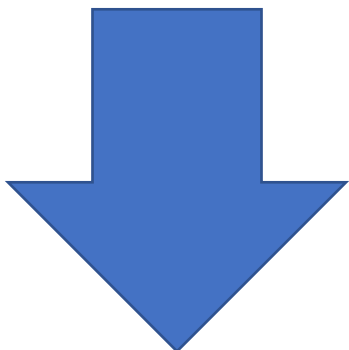

If a student's registration period changes, or if they receive an award during the academic year, the Department will re-calculate their funding package and re-issue the funding letter.

*Only students in the funded cohort receive a funding letter*

*Packages are split based on legal status:*

<b>Program</b>	<b>Legal Status</b>	<b>UF</b>	<b>RA</b>
PhD	Domestic	35%	65%
PhD	International	12%	88%
MASc	Domestic	35%	65%
MASc	International	30%	70%

\*OGS scholarships are valued at \$15,000. \$10,000 is provided by the Ontario Government as a scholarship. The remaining \$5,000 is paid by a fellowship top-up of \$2,000 and an RA top-up of \$3,000.

For any internal or external scholarships the student receives during the year *when no pre-approved package exists*:

Scholarship level	Student top-up	RAship reduction	Fellowship reduction
$\leq \$3,000$	$X^*$	-	-
$\$3,000 - \$5,000$	$\$3,000$	$(X - \$3,000)$	-
$\$5,000 - \$10,000$	$\$3,000 + 0.5(X - \$5,000)$	$\$2,000 + 0.5(X - \$5,000)$	-
$> \$10,000$	$\$5,500 + 0.333(X - \$10,000)$	$\$4,500 + 0.333(X - \$10,000)$	$0.333(X - \$10,000)$
*Where X = total value of the scholarship (\$)			

1. *Example*, if a student received a \$6,000 internal scholarship:
  - Student's total funding package will increase by \$3,500, RAship funding will be reduced by \$2,500.
2. *Example*, if a student receives a \$13,000 scholarship:
  - Student's total funding package will increase by \$6,500, RAship funding will be reduced by \$5,500 and Fellowship funding will be reduced by \$1,000.
