Emergency Job Posting – Course Instructor Position  
Fall Term 2023 (September - December)

The Civil & Mineral Engineering Department at the University of Toronto seeks at least one Course Instructor for the following course:

CIV312H1F: Steel and Timber Design
An introduction to structural engineering design. Topics discussed include safety and reliability, load and resistance, probability of failure, performance factors, and material properties. A study of basic steel design examines tension members, compression members, beams, framing concepts and connections. Plasticity and composite action in steel structural systems are also discussed. Timber design aspects include beams, compression members and connections.

Qualifications
A postgraduate degree in civil engineering is required. Previous teaching experience preferred.

Relevant Criterion:
Past teaching experience is the more relevant criterion than the need to acquire experience in respect of this posted position.

Duties
• Developing syllabus
• Delivering three hours of lectures per week for the Fall 2023 term
• Providing scheduled office hours for academic counselling of students
• Setting assignments, midterms, and final exams
• Supervising teaching assistants
• Grading final examination papers

Estimate of TA Support: 224 hours
Estimated Course Enrolment: 100 students
Rate of Pay: $8,142.51 (excludes vacation pay)

Final availability of the position is contingent upon enrolment, budgetary consideration and the determination of appointments as governed by the collective agreement.

Application Process
Applicants should submit a cover letter, C.V. (including previous teaching evaluations (if applicable)), by Monday July 24, 2023. Applications should be sent to:
