[civmin.utoronto.ca](http://civmin.utoronto.ca)

Organized with the support of:

Canadian Society for Civil Engineering  
La Société Canadienne de Génie Civil  
University of Toronto Student Chapter

Civil & Mineral Engineering  
UNIVERSITY OF TORONTO

ACCIONA  
ACCIONA.CA

ACCIONA Infrastructure Canada is a leading construction and infrastructure company specializing in the development of large-scale projects across Canada and worldwide. Known for its innovative and sustainable approach, ACCIONA delivers complex civil engineering, transportation, and renewable energy projects that positively impact communities and advance global infrastructure.

Amico Affiliates  
AMICO.BUILDS.COM

Amico is a trusted construction and contracting company recognized for delivering high-quality residential, commercial, and infrastructure projects. Known for exceptional craftsmanship, reliability, and attention to detail, Amico ensures every project meets the highest standards of safety, durability, and workmanship.

Amico provides comprehensive, end-to-end construction solutions tailored to each client's vision, timeline, and budget. In addition to building services, the company is equipped to execute heavy civil and infrastructure projects, including site servicing, utilities, roadwork, and large-scale structural work. Driven by a commitment to integrity, innovation, and customer satisfaction, Amico Construction continues to build lasting value—one project at a time. The result is a culture where people feel encouraged to share ideas, solve problems together, and keep growing.

Arcadis  
ARCADIS.COM

Arcadis is the world's leading company delivering sustainable design, engineering, and consultancy solutions for natural and built assets. We are more than 36,000 people, in over 70 countries, dedicated to improving quality of life. Everyone has an important role to play. With the power of many curious minds, together we can solve the world's most complex challenges and deliver more impact together.

BGC Engineering  
BGCENGINEERING.CA

BGC Engineering Inc. (BGC) is an international consulting firm that provides professional services in applied earth sciences. Our practice was established in 1990, based on a specialized appreciation of the impacts of geology on engineered structures. This continues to be our foundation today, enabling us to address a broad spectrum of engineering and environmental issues related to development in challenging terrain.

Bird Construction  
WWW.BIRD.CA

Bird Construction is a leading general contractor in Canada with a long history of service that has offices from coast to coast. Bird's clients include leading firms in the commercial, institutional, retail, multi-tenant residential, industrial, mining, water and wastewater, energy and civil sectors. Today, Bird is a publicly traded corporation with employees forming a significant shareholder group. This enhances the degree to which employees at all levels commit to their clients. A hands-on approach to the business has given Bird an edge in being able to make decisions quickly and to adapt to the requirements of their clients.

UNIVERSITY OF  
TORONTO  
SCARBOROUGH

U of T - Department  
of Physical &  
Environmental  
Science

UTSC.UTORONTO.CA/PHYSSCI/

We offer three exceptional graduate programs for you to explore:

- a professional 12-month Master of Environmental Science program (also available part-time); and
- a PhD in Environmental Science Program (which provides 5 years of funding); and
- a brand new 16-month research-based MSc in Environmental Science program (first cohort begins May 2023).

U of T - Master of  
Management of  
Innovation  
[UTM.UTORONTO.CA/MMI](http://UTM.UTORONTO.CA/MMI)

The Master of Management of Innovation program attracts students with science, engineering and technology backgrounds. The graduate program prepares students with the knowledge, skills and strategic perspectives required to become leaders and senior managers. Our curriculum provides a strong foundation in economic analysis, technology management, business strategy, finance, accounting, marketing and policy. The required academic core courses focus on management and economics; students select three electives tailored to their interests and goals. Students must complete a 4-month internship in order to be eligible for graduation. The internship allows students to gain valuable, real-world work experience and an opportunity to demonstrate the key competencies the MMI program has taught them.

Vale Base Metals  
[VALEJOBS.CA](http://VALEJOBS.CA)

We are a global mining company dedicated to safely delivering nickel, copper, cobalt, and platinum group metals essential for the world's energy transition. Our mission is to improve lives and shape a better future together.

From utensils to cellphones to satellites, our operations simplify daily life and enhance connectivity. Our metals are integral to life-saving medical equipment and the electric vehicles driving the fight against climate change – our work truly matters.

WSP Canada  
[WSP.COM/EN-CA](http://WSP.COM/EN-CA)

We are one of the world's leading engineering and professional services firms. Our 73,900 passionate people are united by the common purpose of creating positive, long-lasting impacts on the communities we serve through a culture of innovation, integrity, and inclusion. With 12,000 professionals across Canada, we are dedicated to our local communities and propelled by international brainpower.

York1  
[YORK1.COM](http://YORK1.COM)

York1 is one of North America's oldest environmental and infrastructure companies, serving customers and communities with care and respect for over 70 years. As a recognized leader in the industry, we have worked on some of the largest and most complex commercial and residential projects across Ontario. We have the knowledge, experience, and resources necessary to get any job done safely and efficiently. We Provide: Demolition, Waste Solutions, Soil Remediation, Hydrovac, Shoring and Foundations, Construction Services , Excavation, Scrap Metal Recycling, Abatement and Remediation, Sewer Inspection and Flushing and Drilling.”

# Civil & Mineral Engineering UNIVERSITY OF TORONTO

## Graduate Programs in CivMin

CIVMIN.UTORONTO.CA

[UOFT.ME/PROFESSIONALPROGRAMS](https://uoft.me/professionalprograms)

### PROFESSIONAL PROGRAMS

#### MEng

Our flagship course-based program offers advanced education to both recent graduates and civil engineers in professional practice. MEng students can tailor their experience through an optional project and by focusing their studies in one or more of our emphases.

An extended full-time Co-op option that includes paid full-time work experience is also available.

#### MEngCEM

This unique interdisciplinary program prepares students for a career in cities by integrating engineering, urban policy, economics, data analytics, infrastructure and sustainability.

The MEngCEM is a dynamic small-cohort course-based program that includes a for-credit practicum.

### RESEARCH PROGRAMS

#### MASc

Our fully-funded Master of Applied Science program includes a foundational base of graduate courses followed by a research thesis. Many MASc research projects involve industrial partnerships and networking opportunities, project management experience, and collaboration with leading experts.

#### PhD

Our fully-funded PhD program is designed for outstanding individuals interested in a rewarding career in fundamental or applied research. The Doctor of Philosophy program involves advanced courses and an intensive research program culminating in a thesis.
